To Whom It May Concern,

It is with great pleasure that I write this letter of recommendation for

Ahmed Gamal Kotb Elmahy who has an indisputable potential and motivation.

He is a student of high moral and ethical standards. I am sure he will put forth all his efforts into tasks that he confronts.

I supervised him during his rotation and found him to be very hard working, spending as much time as necessary to find everything he possibly could about the patients and their problems.

For these reasons, I enthusiastically recommend him for your program. I predict he will enjoy a successful medical career in the years ahead.

Prof. Dr. Mohamed Hesham

Vice Dean for Education & Students Affairs
Faculty of Medicine
Alexandria University
